EXPERIENCE

Delhivery, Gurugram — SDE

June 2019 - PRESENT

- Member of the Core team that communicates with nearly all other microservices.
- Extensively worked on Django Views and RESTful APIs.
- Handled and administered production Elasticsearch service.
- Optimised response time of most time taking pages of the website.

PROJECTS

[EARRS](#) — Escalations Management System

- Provided faster resolution to customer escalations by
 - Building a smart interaction layer at escalation sources to solve non actionable escalations at source.
 - System based solving of actionable escalations, by triggering workflows on internal systems.
- Improved Consignee Escalations Average Response Rate from 41% to 90%

SI Integration — Sorter Images Integration

- Provided faster resolution to shipments image related queries by
 - Building automations using Cron at a local FTP server to upload images to Amazon S3.
 - Constructed an independent layer to publish all images from Amazon S3 to Data Management Service using Amazon SQS and AWS Lambda.

UMS 2.0 — User Management System 2.0

- Provided a more efficient way to authenticate and authorize users for every application request.
- Integrated with Auth0 platform.
- Improved database queries by moving the authorization to a stateless mechanism.

EDUCATION

National Institute of Technology, Kurukshetra — B.Tech

JULY 2015 - MAY 2019 (CGPA: 8.222)

Jain Public School, Rewari

12th - 2014 - 88.8% (CBSE)

10th - 2012 - 10 CGPA (CBSE)

SKILLS

- Languages: C/C++, Python
- Fundamentals: Data Structures, Algorithms, OOP, DBMS
- Database: PostgreSQL, Elasticsearch
- Framework: Django, Flask (Beginner)
- Cloud: AWS (Certified)

ACHIEVEMENTS

CodeChef Max Rating: [1770](#)

All India Rank 260 | World Rank 356
CodeChef COOK90

All India Rank 353 | World Rank 418
CodeChef COOK92B

CERTIFICATIONS

- Complete Elasticsearch Masterclass with Logstash and Kibana | [Udemy](#)
- Developing on AWS | [AWS](#)

EXTRACURRICULARS

- Badminton, Snooker
- Learning to play Guitar
